## MULTIFUNCTIONAL COLOUR

### COMPETITIVE SPEED

Multifunction A4 colour models for professionals and small workgroups looking for high-speed compact products for network environments.

Intuitive **OPERATOR PANEL** for copy production and full scanning power in network environments

Standard 50-sheet **AUTOMATIC DOCUMENT FEEDER (ADF)**

#### SHARING

Both models use a standard network interface to make the print and scan functions available for multiple users.

#### VERSATILITY

The d-Color MF200 and MF240 support **paper formats** from A5 to 1.20 metre banners and paper weights up to 203 g/m<sup>2</sup>.

The d-Color MF240 can be fitted with the following **options**: automatic duplex, second paper tray and 20 GB hard disk.

#### SIMPLICITY

The optical character recognition software converts scanned images into text documents ready for editing. The easy-to-use fax transmission software sends **fax messages directly from the user PC**, without requiring a dedicated telephone line.

#### COMPACT FOOTPRINT

By incorporating the functions of four different machines into a single compact device, these models **optimise the use of space**.

### MAIN CHARACTERISTICS

<b>STANDARD COPIER, PRINTER, SCANNER AND FAX FUNCTIONS*</b>	<b>HIGH PRODUCTIVITY AND QUALITY</b>
<b>AMONG THE FASTEST AND MOST COMPETITIVELY PRICED A4 MFPS</b>	<b>SUPER-COMPACT DIMENSIONS</b>
<b>STANDARD NETWORK CONNECTIVITY</b>	<b>INTUITIVE USE</b>
<b>EASY-TO-USE FAX TRANSMISSION SOFTWARE</b>	<b>WIDE OPERATOR PANEL FOR QUICK ACCESS TO ALL DIGITAL FUNCTIONS</b>

\*PC FAX TRANSMISSION VIA SOFTWARE

#### PRODUCTIVITY

The d-Color MF200 and d-Color MF240 are the fastest A4 colour models in their class: **12 copies per minute in colour** and 20 in b/w for the MF200; **16 copies per minute in colour** and 24 in b/w for the MF240.

The automatic document feeder loads up to **50 sheets**, for easy management of multipage documents.

#### RELIABILITY

The **single-pass LED printing technology** delivers superlative printing quality at maximum speed. And with fewer moving parts and straight-through paper path, it minimises the risk of paper jams.

#### PRINTING

The d-Color MF200 features **GDI emulation**, while the d-Color MF240 supports **PCL and Postscript**; both models provide real resolution of 1200 x 600 dpi.

#### DIGITISATION

The colour **scanning** function can be used with the **automatic document feeder** or from the **flatbed** platen.

The "scan-to-email" function transmits documents to an **address book** of 300 e-mail addresses, while the "**scan-to-FTP**" function sends scanned documents to a file server, where they can be accessed by all network users.

Colour is a key printing requirement in today's small and medium business. Its printed material is a primary channel for conveying its image and often the first point of contact with the customer: colour heightens impact, enhancing the visual appeal of any document and making for easier reading.

Until now, it was impossible to find a competitively priced product with the compact footprint of a multifunction desktop device, the speed of a one-pass laser engine and the colour printing quality of a professional system.

The Olivetti d-Color MF200 and d-Color MF240 are the perfect solution to these needs, combining advanced colour management functions with ease of use and maximum reliability: at last, a tool for the small office to produce high-impact colour documents.
